*"Protecting Idaho through Safety, Accountability,
Partnerships And Opportunities for Offender Change"*

NOTICE OF RETAINED JURISDICTION INMATE PLACEMENT

OFFENDER NAME (Last, First, MI)	IDOC #	CASE #	RJ END DATE
<i>Your recommended placement:</i>			
<i>The inmate was placed in:</i>		<i>Facility location:</i>	<i>Estimated completion:</i>
<i>If the recommendation was not followed, the reason(s) are indicated below; those that apply are checked:</i>			
Educational Need	The offender was tested through the use of a nationally supported screening and survey tool, Test for Adult Basic Education (TABE), and it was determined that his/her functioning ability falls below the 6 th grade standard. This deficiency precludes the offender from engaging in the recommended treatment. These educational deficits will not limit access to treatment, but must be addressed at the facility of placement.		
	The offender lacks a GED/HSD, which is the minimum level of education as determined by Best Practice Standards. The lack of a GED/HSE diminishes the offender's potential to acquire living wage employment and negatively impacts community success. This educational deficit will not limit access to treatment, but must be addressed at the facility of placement.		
Medical Need	The offender has significant medical needs that can only be addressed at our most substantial medical setting. The offender will receive a traditional rider opportunity in conjunction with medical services to allow IDOC to stabilize these issues in anticipation for an effective and successful reentry opportunity.		
SOTP Need	The offender requires sex offender services based on assessment, file review, and clinical interpretation. While sex offender services are necessary to ensure public safety, the offender will also receive services that address other criminogenic needs as determined by comprehensive assessment and court recommendations.		

**IDAHO DEPARTMENT OF CORRECTION
NOTICE OF RETAINED JURISDICTION INMATE PLACEMENT** (continued)

OFFENDER NAME (Last First, MI)		IDOC #	CASE #	RJ END DATE
LSIR Score/Domain Score Does Not Meet Criteria	The offender lacks an assessed significant substance abuse issue based on an LSIR alcohol/drug domain score that is less than .4 and a TCU drug screen score that is less than 3.			
	The offender's overall LSIR score exceeded 40. Offenders who score in the 41 and above range exhibit psychopathy that precludes CAPP placement. Based on assessed criminogenic needs, the offender will instead receive a traditional rider or TC program.			
	The offender does not meet minimum TC placement criteria, based on the four most significant domain areas of the LSI-R (criminal history .6 or greater, substance abuse .6 or greater, attitudes/orientation .4 or greater, companions .4 or greater). The offender will receive comprehensive services in a CAPP or traditional rider program to meet all assessed criminogenic needs.			
Mental Health Need	The offender has significant mental health needs that can only be provided at our most substantial mental health setting. The offender will receive a traditional rider opportunity in conjunction with concurrent mental health services to allow IDOC to stabilize these issues in anticipation for an effective and successful reentry opportunity.			
Requires Higher Level of Security	The offender presents a significant security issue within IDOC treatment facilities and will be placed in a medium custody facility. The offender will receive comprehensive services in a traditional rider setting to meet all assessed criminogenic needs.			
Bed Capacity	No bed space is available for the recommended placement. Based on assessed need, the offender will be placed into the next highest level of intervention.
