Standards for Health Services in Prisons, P-20.

**04.00.00. DEFINITIONS**

Facility Health Authority: The on-site Health Authority or senior health staff assigned.

Medical Authority: Idaho Department of Correction Health Services Chief.

Medical Director: A physician (M.D.) either employed by the Idaho Department of Correction or the physician in charge if medical services are privatized.

Regional Health Manager: The individual assigned as the primary manager who is administratively responsible for the delivery of medical services if health services are privatized.

-------------------------------------------	-------------------------------------------------------	-------------------------------

**05.00.00. PROCEDURE**

The Facility Health Authority shall cooperate with the Department's Training Manager to provide training for all employees to respond to health related situations comparable to those defined by the American Red Cross and the NCCHC. The training shall include, but is not limited to, an awareness of potential emergency situations, response to life threatening conditions and responsibility for the early detection of illness or injury.

It is essential that the first aid training course for employees include certified courses in coronary pulmonary resuscitation and first aid, with in-service training to maintain certification as recommended by standards or state regulation.

The acceptable standard is 75% or more of the staff on each shift be trained at least every two years in one of the areas addressed by the Standards.
