## 2. RDU Assessment and Evaluation

Each inmate must attend an orientation within five working days of admission into RDU.

During the RDU process, staff assess inmates in the following areas and include the following tools:

- Medical, mental health and dental
- Education - TABE locator and other assessments as determined by staff
- Texas Christian University Drug & Alcohol Assessment
- Level of Service Inventory - Revised (LSI-R).
- STATIC-99(R) – Sex Offender Assessment Tool (if applicable)

The assessments are not conducted in any particular order. The department may conduct additional assessments.

During assessment, the RDU case manager must review the central file, CIS, or both, including:

- Commitment order
- Pre-sentence investigation (PSI)
- Probation supervision notes (CIS)
- Previously completed assessments

Evaluate and assess each inmate for recommendation of facility placement.

## 3. Retained Jurisdiction Placement Criteria

Place the inmate in an appropriate program type based on the assessment process, placement criteria, file review, and individual needs. For inmate placement criteria, see *Retained Jurisdiction Placement Criteria* form.

The RDU case manager must complete a c-note entry summarizing program placement in the electronic system of record (CIS).

The case manager sends a *Notice of Retained Jurisdiction Inmate Placement* form to the sentencing judge. This form gives notice to the court as to housing and program assignment of the inmate. The notification form goes in section two of the central file. The department transfers the inmate to the appropriate facility according to standard operating procedure.

## 6. Clinical Staffing

Clinical staff must be present and provide input into the recommendation in the form of a *Mental Health Discharge Summary* for any inmate whose mental health level of care is CMHS1 and above.

Clinical staff must also be present and provide input into the recommendation in the form of a *Sex Offender Assessment Group Discharge Summary* for any inmate participating in the Sex Offender Assessment Group (SOAG).

## 7. Addendum to the Pre-Sentence Investigation (APSI)

The APSI is a continuation of the pre-sentence investigation and provides information regarding the following:

- Needs assessment and program plan recommendations
- Individual program plan
- Disciplinary actions
- Activities/Issue Summary
- Summary of probation plan
- Recommendations

The assigned case manager must prepare an APSI 21 days before ECD using the *Addendum to Presentence Investigation* and *Addendum to Pre-Sentence Investigation Cover Sheet*. Use the format in the coversheet for the court to review and make a final decision. The case manager must submit the APSI to the sentencing court no more than 14 days and no less than seven days before the estimated program completion date.

In the event of serious disciplinary issues or an inmate's refusal to program, the facility head may immediately remove the inmate from the retained jurisdiction program and recommend relinquishment. Send the APSI to the court within two business days of the event.

## 9. Quality Assurance

Each facility is responsible for ensuring appropriate quality assurance reviews and measurements are in place for each APSI written and submitted to the courts.

Each facility must assign retained jurisdiction program manager(s) to participate on a rider review panel to meet quarterly. Each panel member provides one completed APSI for each rider type. The review panel reviews the selected APSIs for quality content and makes recommendations as needed for continuous quality improvement.

The panel also reviews relinquishment trend data as supplied by research & analysis from data gathered from the *Relinquishment Survey*.
